For this, the insurer should communicate in writing to the insured or legal representative or nominee or assignees of insured, as applicable, mentioning the ground and materials on which such decision is based.

03. Fraud means any of the following acts committed by insured or by his agent, with the intent to deceive the insurer or to induce the insurer to issue a life insurance Policy:
    a. The suggestion, as a fact of that which is not true and which the insured does not believe to be true;
    b. The active concealment of a fact by the insured having knowledge or belief of the fact;
    c. Any other act fitted to deceive; and
    d. Any such act or omission as the law specifically declares to be fraudulent.

04. Mere silence is not fraud unless, depending on circumstances of the case, it is the duty of the insured or his agent keeping silence to speak or silence is in itself equivalent to speak.

05. No Insurer shall repudiate a life insurance Policy on the ground of Fraud, if the Insured / beneficiary can prove that the misstatement was true to the best of his knowledge and there was no deliberate intention to suppress the fact or that such mis-statement of or suppression of material fact are within the knowledge of the insurer. Onus of disproving is upon the policyholder, if alive, or beneficiaries.

06. Life insurance Policy can be called in question within 3 years on the ground that any statement of or suppression of a fact material to expectancy of life of the insured was incorrectly made in the proposal or other document basis which Policy was issued or revived or rider issued. For this, the insurer should communicate in writing to the insured or legal representative or nominee or assignees of insured, as applicable, mentioning the ground and materials on which decision to repudiate the Policy of life insurance is based.

07. In case repudiation is on ground of mis-statement and not on fraud, the premium collected on Policy till the date of repudiation shall be paid to the insured or legal representative or nominee or assignees of insured, within a period of 90 days from the date of repudiation.

08. Fact shall not be considered material unless it has a direct bearing on the risk undertaken by the insurer. The onus is on insurer to show that if the insurer had been aware of the said fact, no life insurance Policy would have been issued to the insured.

09. The insurer can call for proof of age at any time if he is entitled to do so and no Policy shall be deemed to be called in question merely because the terms of the Policy are adjusted on subsequent proof of age of life insured. So, this Section will not be applicable for questioning age or adjustment based on proof of age submitted subsequently.

Expressions	Meanings
	iii. In case of multiple disabilities on the same limb in a single event, the maximum benefit payable shall be restricted to that payable upon the loss of that limb. For example, in the event of loss of one hand, only 50% of Rider Sum Assured for APPD Benefit, shall be made as per above table and the Life Assured cannot claim for the loss of fingers of the lost hand. Similarly, in case of physical severance of a higher level anatomical part the pay-out shall be restricted to the higher order payment. For example: - Thumb and four fingers of one hand would warrant a payout of 50% as per the above table. It would not mean additional payout for each finger and its phalanx. - Loss of Index finger (three phalanxes) by physical severance would be eligible for 15% payout as per above table. The Life Assured in this case shall not be eligible for additional payout for Index finger (two phalanxes) & Index (one phalanx). iv. Point (iii) above shall however be not applicable if the physical severance happens to any contralateral body part. "**Loss of Speech**" Total and irrecoverable loss of the ability to speak as a result of Accidental Injury to the vocal cords. This diagnosis must be supported by medical evidence furnished by a Medical Practitioner who is an Ear, Nose, Throat (ENT) specialist. All psychiatric related causes are excluded. "**Deafness (Loss of Hearing)**" Total and irreversible loss of hearing in both ears or one ear as a result of Accident. This diagnosis must be supported by pure tone audiogram test and certified by a Medical Practitioner who is an Ear, Nose and Throat (ENT) specialist. Total means "the loss of hearing to the extent that the loss is greater than 90 decibels across all frequencies of hearing" in both or one ear(s). "**Blindness (Loss of Sight)**" I. Total, permanent and irreversible loss of all vision in both eyes or one eye as a result of Accident. II. The Blindness is evidenced by: a. Importance of Hepatitis Marker
Hepatitis B is caused by the hepatitis B virus (HBV). HBV is a noncytopathic virus. This means that the virus itself does not cause direct damage to liver cells. Instead, it is the immune systems aggressive response to the virus that usually leads to inflammation and damage to the liver (hepatitis). However, HBV can cause damage to the genetic material inside liver cells. This can lead to liver cancer which, like hepatitis, can also be fatal.
It is present in the sera of patients with viral hepatitis B (with or without clinical symptoms). Patients who developed antibodies against HBsAg (anti-HBsAg sero conversion) are usually considered non-infectious. HBsAg detection by immunoassay is used in blood screening, to establish a diagnosis of hepatitis B infection in the clinical setting (in combination with other disease markers) and to monitor antiviral treatment. Positive HBsAg tests can be due to recent vaccination against Hepatitis B virus but this positivity is unlikely to persist beyond 14 days post-vaccination.
